

command status as the Medical Research Laboratory, under the direction of the Navy's Bureau of Medicine and Surgery. From there, its mission grew to the selection of all officers and enlisted for training at the Naval Submarine School, specialized training in submarine medicine for hospital corpsmen and medical officers and research into the medical aspects of submarines and diving. As our maritime national security policy evolved to meet the demands of the Cold War Era and new age of nuclear deterrence, so too did the Research Laboratory's avenues of focus and innovation, including its innovative work in submarine rescue experiments.

The Research Laboratory has worked tirelessly to push the field of underwater safety forward in the decades since. For example, it has developed countless reliable products including the International Orange high-visibility color enhancing rescue at sea, the Farnsworth Lantern color vision test, the improved Submarine Escape Immersion Equipment suit, the enhanced Disabled Submarine Survival Guide as well as numerous generations of the Navy's diving and decompression tables which are still in use today. In fact, the Research Laboratory's work has also been instrumental in evolving our nation's submarines to become more healthy, productive and disciplined places of work. This includes its adoption of smoke-free submarine environments, production of studies that supported women serving aboard and studies that have produced a better understanding of effective shifts of duty as a result of changes to an individual's natural circadian sleep cycle while aboard a submarine. The sleep research resulted in a healthy change in submarine work and sleep schedules that has since been embraced by the modern U.S. submarine force. In the wake of tragic ship collisions in 2017 that resulted in devastating loss of lives, the New London based-research is now being applied to our nation's surf ace fleet.

Madam Speaker, as the Congressman who has the honor to represent Submarine Base New London, and has visited the lab, I can attest to the talent and passionate commitment of the workforce at that facility, whose unique mission is truly a national treasure. Employing sophisticated, one-of-a-kind equipment, the Naval Submarine Medical Research Laboratory and its dedicated staff of scientists remain experts in many highly specialized areas to this day. They serve the fleet and support our Nation's undersea troops by conducting studies that ensures the readiness and effectiveness of submariners and divers operating aboard submarines, those operating in the undersea battle space, and warfighters fighting from the sea. To that end, on this 75th Anniversary of its founding, I ask my colleagues to join me in honoring all those who have served, currently serve, or will serve at the Naval Submarine Medical Research Laboratory.

HONORING THE LIFE OF ROBERT  
EARL "BOB" SMITTCAMP

**HON. JIM COSTA**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, June 28, 2021*

Mr. COSTA. Madam Speaker, I rise today to honor the life of Robert Smittcamp. He passed

away on March 4, 2021 after many years of significant contributions to the San Joaquin Valley. Robert was a part of the community, and a dear friend to many.

Robert was born in Fresno, California to Earl and Muriel Smittcamp on May 29, 1941. In 1945, his family purchased the Wawona Ranch from Muriel's father that held 40 acres of peaches. This later was known as the Smittcamp Family Business. Having a father who served in World War II as a marine, Robert was a hard worker along with his siblings, Carol, Betsy, and Bill. By the age of 10, Robert knew how to operate a forklift. When Robert was diagnosed with polio in 1953, he spent months in an iron lung in his parent's living room on the ranch. He developed his faith in God during that time and became an acolyte in his church.

In 1959, Robert graduated with honors from Clovis High School and was involved with FFA where he earned many local and national awards. After graduating from California State University, Fresno in 1964 with a BS in Business-Economics, he and his father, Earl, founded Wawona Frozen Foods. The frozen fruit business thrived in downtown Fresno and in 1965 a freezer plant was built on Alluvia 1 Avenue in Clovis, California. A year later, Robert enlisted in the United States Army Reserve in 1965 through 1966 driving the Army General to and from military events in San Francisco. He learned cooking tips from the chefs in the kitchen that the General would dine at for his meetings. During his time in the Army Reserve, Robert still enjoyed working alongside his father. Soon after, Janell Robinson entered Robert's life while in the Army Reserves, and in 1966, they married and began their own family in 1968 with son Brent and their daughter Lisa in 1970. Janell gave birth to their second son, Brandon in 1982.

His father, Earl had a big influence on Robert's life. When Earl ran for State Senate, Robert saw another path he could take, with politics. His interest in politics began and he became a wise mentor for many people, but also continued to see himself working in a business. In 1971, Earl and Robert acquired the San Francisco based Lyons-Magnus and decided to move that company to the city of Clovis. Robert served as the President and CEO for over 40 years. They made ice cream toppings, fruit toppings and non-carbonated drink bases. The company became an internationally renowned food manufacturing company. While raising his family, Robert continued to work on the company's growth. In 1983, Lyons-Magnus leased a manufacturing plant in Kentucky, and after two years the company installed and operated the first a septic bottle filler in the United States in Clovis. In 1989, the plant was moved to downtown Fresno. The company worked with companies like Starbucks, McDonalds, Carl's Jr., Dairy Queen, and more.

When Brent grew older, he worked with his father and Grandpa Earl. In 1997, Robert and Brent purchased 160 acres together as the B & B Ranch. They worked on the Wawona Packing Company fanning over 8,000 acres and the ranch. Robert's youngest son, Brandon, shared another one of Robert's passions and got into the restaurant business. Robert assisted him in acquiring The Lime Lite, a Fresno-based restaurant.

In 2015, Robert married Annette and welcomed her sons Michael and Steven into the

family. Robert's family grew and so did the companies. In 2017, Robert and Brent decided to sell their companies to the same private equity company and stay on the Board of Directors. Robert, Brent, and Brandon all worked together.

Robert had a strong passion to serve the community. He was on Boards such as the Community Regional Medical Center, Stanford Medical Centers Cardiovascular Institute, St. Agnes Hospital, Board of Governors of California State University, and more. His donations to causes, hospitals, universities, non-profits and more throughout the San Joaquin Valley were endless. He donated \$1 million to help expand a neuroscience program and remodel the intensive care unit at Community Medical Center. He was a donor for political causes and provided student scholarships for the Smittcamp Family Honors College at Fresno State, founded by Earl and Muriel Smittcamp.

Madam Speaker, I ask my colleagues to join me in honoring the life of Robert Earl "Bob" Smittcamp. He was a role model, leader and a friend of mine. His influence will live on in the San Joaquin Valley for years to come.

IN RECOGNITION OF MYRA LEIGH  
TOBIN

**HON. BRETT GUTHRIE**

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

*Monday, June 28, 2021*

Mr. GUTHRIE. Madam Speaker, I rise today to remember the life of Myra Leigh Tobin, a Harned, Kentucky native. Her education and Christian values were the foundation of her life, and she became a trailblazer for women in the business world as well as a generous philanthropist.

Myra was a proud University of Kentucky Wildcat 1962 graduate and was named to the UK Hall of Distinguished Alumni in 2000. As a UK loyalist, she served on the UK Alumni Association, UK Board of Trustees, and as a founding charter member of UK Women in Philanthropy. Notably, the Myra Leigh Tobin Chapel was constructed in the new UK HealthCare hospital with her generosity. Before her successful insurance career, Myra worked for U.S. Rep. William Natcher. Myra was a strong advocate of education and obtained two master's degrees. In New York, she rose up in the business world and became involved in professional and community organizations. Myra was known as a "Woman of Firsts" through breaking barriers by becoming the first woman in many positions, and she received several professional awards to reflect her achievements. She accomplished all of this while staying entrenched in her Breckinridge County roots.

Myra's generosity reached far beyond geographical borders, and she was determined to mentor family members, friends, and even strangers she encountered. Her leadership and generosity have made a lasting impact, and her legacy will live on.
